Socially Responsible Investing: Putting Your Money Where Your Values Are

If our money is as good as a vote, how can we be sure our money mirrors our values? Can we use our investment capital to influence businesses to be more sustainable? With so many different types of investments and variables to consider, it can be difficult to know exactly what to do with our money.

This Green Drinks-North Shore edition will explore the different types of socially responsible and sustainable investing, and provide insight into how we might leverage our investments for the greatest good.

Bill Moucka
